

## Works Notification

### Construction update Sydenham

From 6 March to April 2020

To enable greater capacity on the Sunbury Line, we are delivering platform extensions, power upgrades and new stabling as part of the \$2.1 billion Sunbury Line Upgrade.

We will soon commence preparatory earthworks that will ready the rail corridor for new infrastructure. During an upcoming planned shutdown of the Sunbury Line, works will also take place to install delineation fencing that will facilitate ongoing construction next to operating trains. For the safety of workers and train users, some of these activities can only take place when trains are not running.

#### What we are doing

##### Delineation fence construction

- Installing temporary fencing that will separate workers from operating trains
- This involves drilling posts into the ground using a small excavator and installing chain mesh fencing.

##### Site and service investigations

- Operating non-destructive digging (NDD) trucks to investigate ground conditions and confirm the location of underground services.

##### Preparatory works

- Vegetation clearing within the construction area
- Delivery of materials
- Installing three site driveways on Victoria Road
- Earthworks involving the use of excavators, bulldozers and rollers to change ground conditions.

#### When

- 7am to 6pm, Monday to Friday
- 7am to 1pm, Saturdays
- In addition to normal construction hours, we will also be working from 9pm, Friday 6 March to 6am, Monday 9 March during a scheduled shutdown of the Sunbury rail line.

#### What to be aware of

- These works are expected to generate medium levels of noise and low levels of vibration, with intermittent periods of high level noise as fence posts are driven into the ground
- Construction vehicles will access the site via Victoria Road and the Melton Highway
- Generator-powered lighting towers are required during nightworks. Where possible, they will be faced away from residential properties
- An increase in construction vehicles including trucks will travel on local roads to access construction sites. Traffic controllers will be present at times to assist with vehicle, pedestrian and cyclist movements around the area. Please move carefully and follow the direction of traffic controllers at all times.

### Travel changes

To ensure upcoming 24-hour works can take place safely, buses will replace trains on sections of the Sunbury Line from 8.30pm Friday 6 March to the last service on Sunday 8 March.
