

## Works Notification

### Out of hours works Sydenham

14 June - 6 July 2020

As part of the Sunbury Line Upgrade we are delivering power upgrades, expanding train stabling capacity and extending the platform at Watergardens station to accommodate more modern trains. In addition to the May construction update distributed earlier this month, we wish to advise of upcoming out of hours work in your area.

#### What we are doing

- Delivering and storing construction materials on site
- Delivering and unloading new rail track from a steel train
- Operating non-destructive digging (NDD) trucks to investigate ground conditions and confirm the location of underground services
- Earthworks including the use of excavators and boring machines
- Installation of new drainage, signalling and services infrastructure.

#### – When

- 8pm, Sunday 14 June to  
6am, Thursday 18 June 2020
- 6pm, Friday 26 June to  
6am, Monday 6 July
- Please note the rail delivery will take place overnight between 9pm, Wednesday 17 June and 6am, Thursday 18 June.

#### What to be aware of

- These works are expected to generate medium levels of noise and vibration, with intermittent levels of high noise during the rail delivery as sections of rail are unloaded from the train using an excavator and dragged into place
- Construction vehicles will access the site via Victoria Rd and the Melton Highway. Traffic controllers will be present at times to assist with vehicle, pedestrian and cyclist movements around construction sites
- Generator-powered lighting towers will be used during nightworks. Where possible, these will be faced away from residential properties
- For the safety of rail users and our workers, these activities can only be performed out of hours when trains are not running.

**KEY**

- Works area
- Construction and site laydown
- Construction site driveway

**Health and safety**

The health and safety of our workers and the community is our key priority as we continue to deliver the Sunbury Line Upgrade, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
