

Works Notification

Site and service investigations

Albion station

16-19 September 2019

To enable greater capacity on the Sunbury Line, we will be extending station platforms as part of the \$2.1 billion Sunbury Line Upgrade.

These works will allow new longer High Capacity Metro Trains to operate on the network and allow for 113,000 extra passengers to travel in peak periods per week.

Before construction to extend Albion station's platforms can begin, works are required to investigate ground conditions and confirm the location of underground services.

What we are doing

- Using non-destructive digging (NDD) trucks to investigate the location of underground services. NDD uses pressurised water to break up and vacuum soil to expose assets and services without damaging them
- Drilling into the ground to obtain rock and soil samples to help us gain a greater understanding of local geological conditions.

When

- 7am to 6pm, Monday 16 September to Thursday 19 September.

What to be aware of

- These works are expected to generate medium levels of noise
- Up to seven car parks at Albion station will be temporarily closed to facilitate these works as equipment is lifted into the rail corridor.

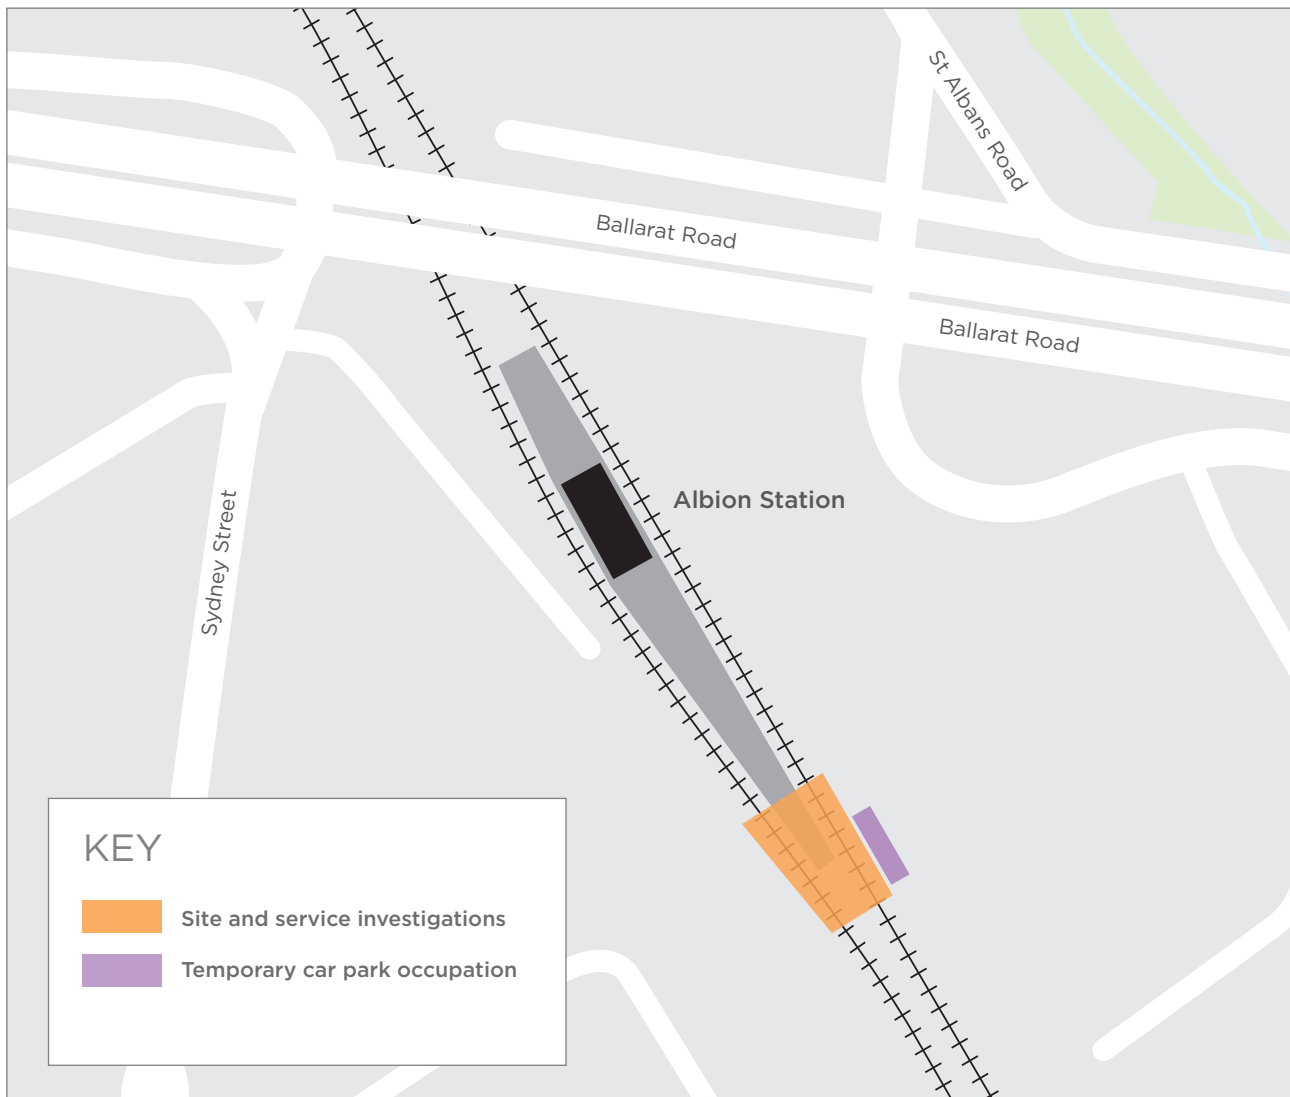

Travel changes

Works are now underway in preparation for a major rail construction blitz commencing at the end of September. This 13-day period will see an unprecedented amount of 24/7 work completed along the Sunbury line that can only take place when trains are not running.

To ensure the 24-hour works can take place safely, buses will replace trains between Flagstaff and Sunshine stations on the Sunbury line from **11.15pm Saturday 28 September to 9pm Friday 11 October**. For further details and to plan your journey, visit ptv.vic.gov.au

AFL Grand Final, Saturday 28 September

The project team have carefully planned the timing of these works to ensure impacts to those travelling to the AFL Grand Final day and evening are minimised.

Rail construction blitz pop-up session

We invite you to join us for an upcoming pop-up information session at Albion station.

Members of the project team will be present to share information and answer questions about works and disruptions in your area. Come say hello and grab a free coffee on us from **6am to 9am Thursday 19 September**.
