

## Works Notification

### Out of hours works

Albion station

26 June - 6 July 2020

As part of the Sunbury Line Upgrade, we are delivering power upgrades that will enable more modern trains to run on the Sunbury Line. We wish to advise of upcoming out of hours works in your area.

#### What we are doing

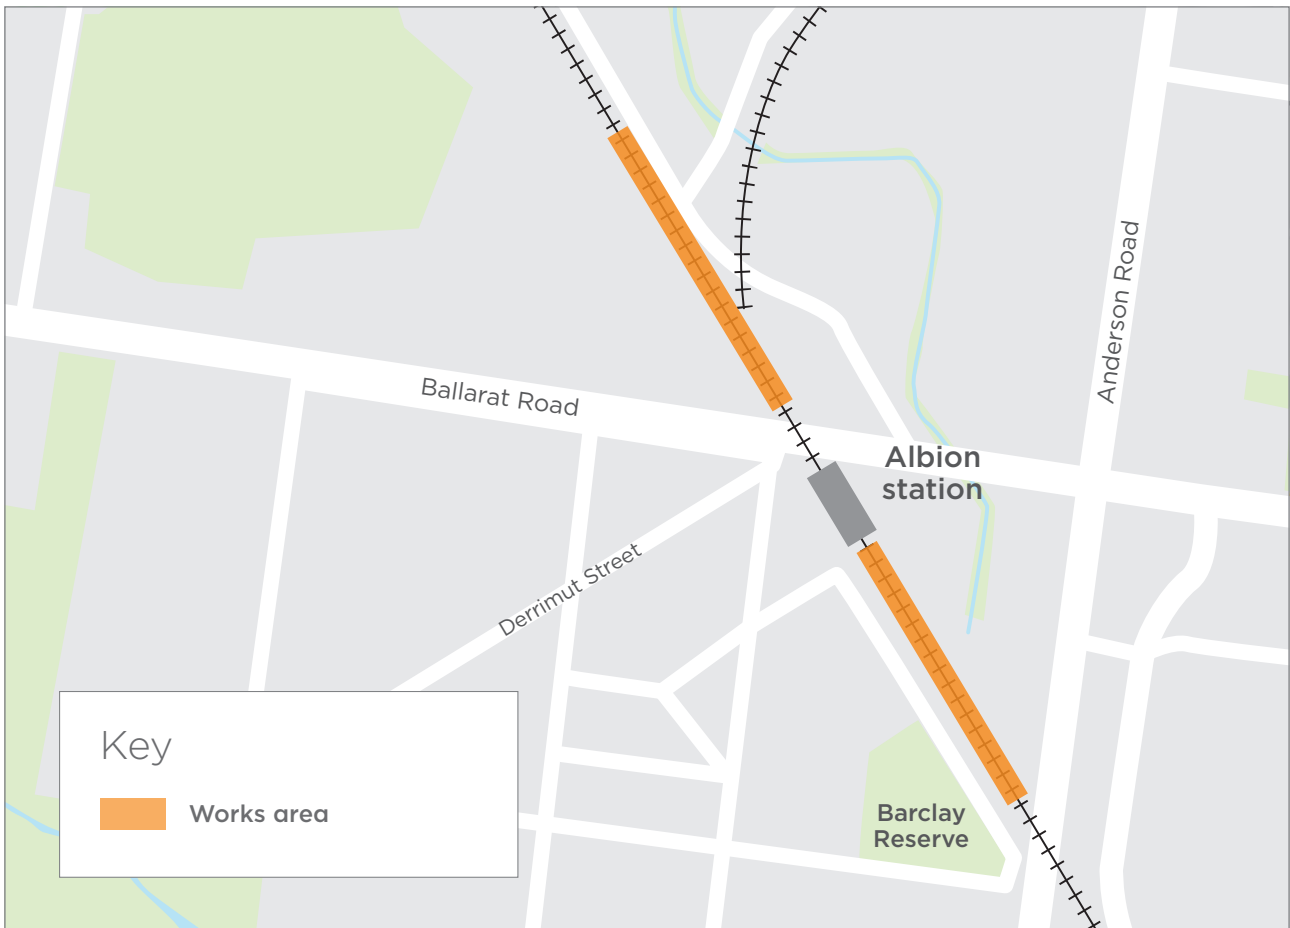

- Installing piles forming the foundations of new overhead wiring structures. Excavators will drill holes in the ground and remove excess soil before a reinforcement cage is installed and concrete poured in to create the pile
- Transporting excess material offsite.

#### When

- 9pm, Friday 26 June to 6am, Monday 6 July
- These works will take place during a scheduled shutdown of the Sunbury rail line.

#### What to be aware of

- These works are expected to generate medium levels of noise and low levels of vibration
- Generator-powered lighting towers will be required during nightworks. Where possible, they will be faced away from residential properties
- An increase in construction machinery will access the rail corridor during these works. Traffic controllers will be present at times to assist vehicle and pedestrian movements around construction sites.

### Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Sunbury Line Upgrade, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
