

Works Notification

Tree removal

Watergardens station

2-20 July 2020

Major construction is continuing along the Sunbury rail corridor as part of the Sunbury Line Upgrade. We are removing several trees next to the rail corridor to enable the installation of new power and signalling services, and a platform extension at Watergardens station.

What we are doing

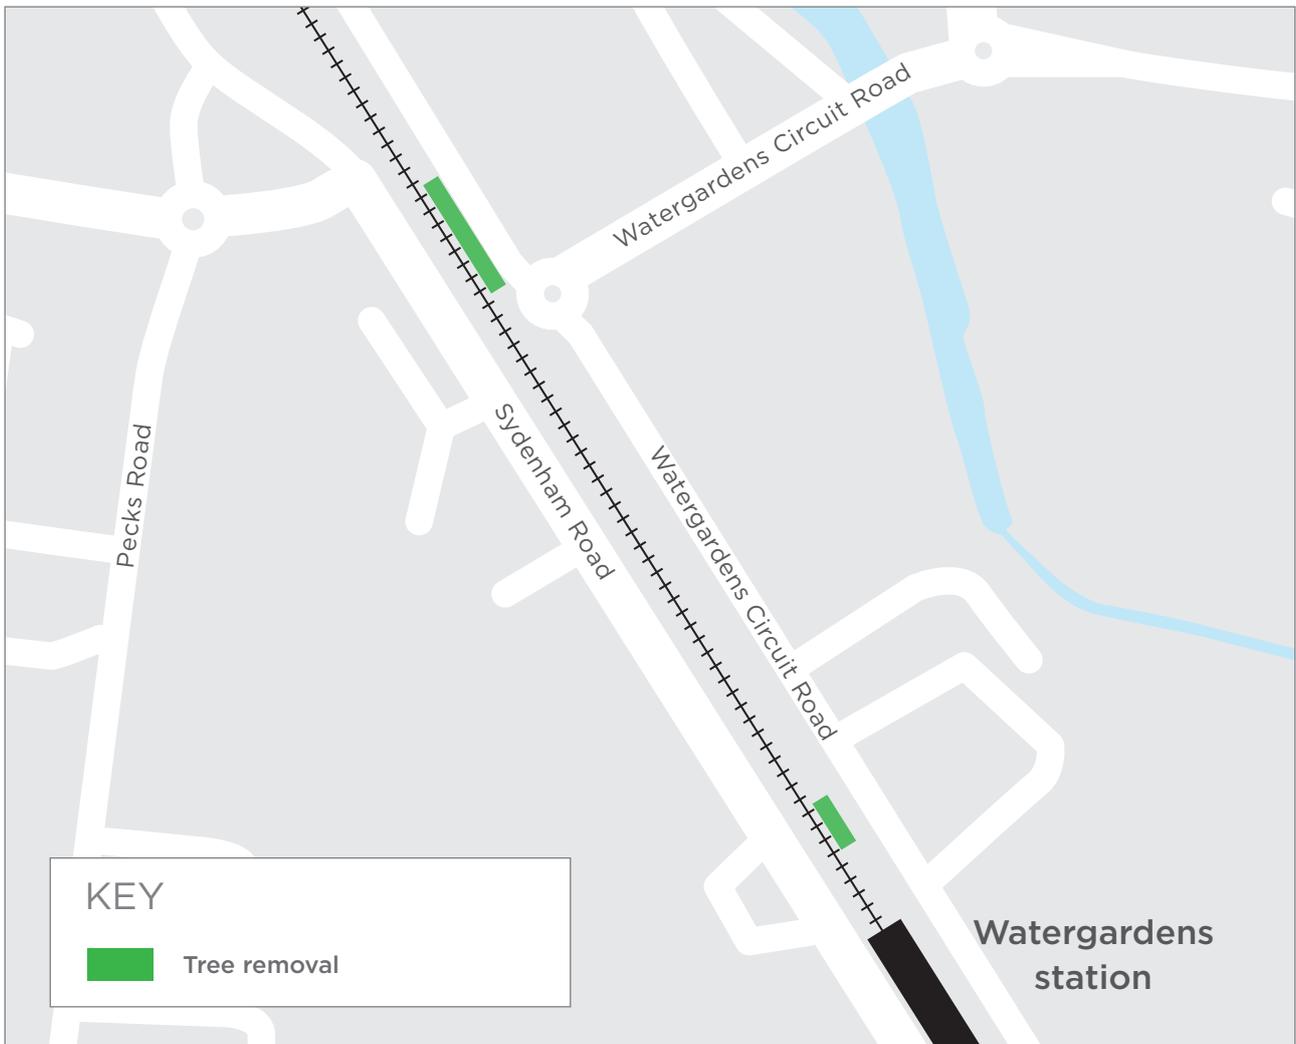

- Saw cutting, excavating concrete on the footpath and using chainsaws to remove the trees
- Mulching removed trees on site using a woodchipper
- Non-destructive digging to confirm the location of any underground services
- Reinstating the footpath surface.

When

- 7am to 6pm, Monday to Friday.

What to be aware of

- Trees required for removal have undergone a detailed arborist assessment. Every effort has been made to minimise the number of trees to be removed
- These works are expected to generate medium levels of noise and low levels of vibration, with intermittent periods of high level noise
- Construction vehicles will access the site via Watergardens Circuit Road. Traffic controllers will be present at times to assist with vehicle and pedestrian movements around the site.

Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Sunbury Line Upgrade, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
