

Works Notification

Site and service investigations

Sunshine station

1 - 4 September

To enable more modern trains to run on the line, we are delivering platform extensions and power upgrades as part of the Sunbury Line Upgrade. We will soon be undertaking site and service investigations at Sunshine station to prepare the rail corridor for new infrastructure.

What we are doing

- Non-destructive digging (NDD) to confirm the location of underground services. NDD uses pressurised water to break up and vacuum soil, exposing assets and services without damaging them
- Temporarily closing 12 spaces in the Sun Crescent car park to facilitate the operation of a NDD truck next to the rail corridor.

When

- 7am-6pm, Tuesday 1 September to Friday 4 September 2020.

What to be aware of

- These works are expected to generate medium levels of noise and low levels of vibration
- Construction vehicles will access the site via Sun Crescent
- Traffic controllers will be present at times to assist with the movement of vehicles and pedestrians around the car park.

Keeping you informed

Coronavirus Stage 4 restrictions are changing the way we communicate our project works and disruptions and our distribution partners are unable to deliver project information to your letterbox during this time.

Please sign up to our email updates via the Rail Projects Victoria website railprojects.vic.gov.au/sunburylineupgrade so we can continue to keep you informed about works in your area.

Health and safety

The Sunbury Line Upgrade is a critical state infrastructure project under Stage 4 restrictions, allowing work to continue with strict health and safety measures in place.

The health and safety of our workers and the community is our key priority and we have measures in place to protect the safety of our construction workforce, including temperature screening, additional protective equipment including masks, daily health screening of workers, enhanced cleaning, staggered shifts and break times, and physical distancing.

Our workforce numbers across Victoria's Big Build have already been significantly reduced to support directions from the Chief Health Officer, and we are continuing to manage the number of staff and visitors attending our worksites.
