

Works Notification

Construction update

Calder Park

July 2020

As part of the Sunbury Line Upgrade, we are delivering power upgrades and expanding the existing train stabling facility at Calder Park to accommodate more modern trains. This update provides an outline of current and upcoming works in your area.

What we are doing

Train stabling facility works

Ongoing until late-2020

- Earthworks involving the use of excavators, bulldozers and vibrating compaction rollers to change ground conditions
- Delivery and installation of new rail track
- Installation of new drainage, signalling and services infrastructure.

Substation works

Ongoing until mid-2021

- Constructing a new substation at Calder Park that will power new trains, signals and communication equipment. Substations contain equipment which convert local power supply into the voltage needed to run trains on the network
- Excavating and installing conduits underground
- Commencing foundation works on new substation and supporting buildings.

When

- 7am to 6pm, Monday to Friday
- 7am to 1pm, Saturdays.

What to be aware of

- These works are expected to generate medium levels of noise and vibration
- Construction vehicles will access the site via Holden Road and Victoria Road. Traffic controllers will be present at times to assist with vehicle, pedestrian and cyclist movements around construction sites.

KEY

- Stabling facility works
- Substation works
- Site access point

Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Sunbury Line Upgrade, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
