

Works Notification

Out of hours works

Sunshine

26 June - 6 July 2020

To enable more modern trains to run on the Sunbury line, we are delivering platform extensions, power upgrades and new stabling as part of the Sunbury Line Upgrade. We wish to advise of upcoming out of hours works in your area.

At Sunshine station we will extend platforms 1 and 2 to allow longer, more modern trains to service the station, as well as installing a raised boarding pad to improve accessibility. New overhead wiring foundations will also be installed along the rail corridor in Sunshine so the trains on the Sunbury Line can use more power.

What we are doing

Sunshine station works

- Installing concrete piles forming the foundations of the new platform area. This involves using excavators to dig through the ground, installing supporting cages and pouring concrete to form the pile
- Constructing a raised boarding pad on platform 2 to improve accessibility at the station.

Overhead wiring works

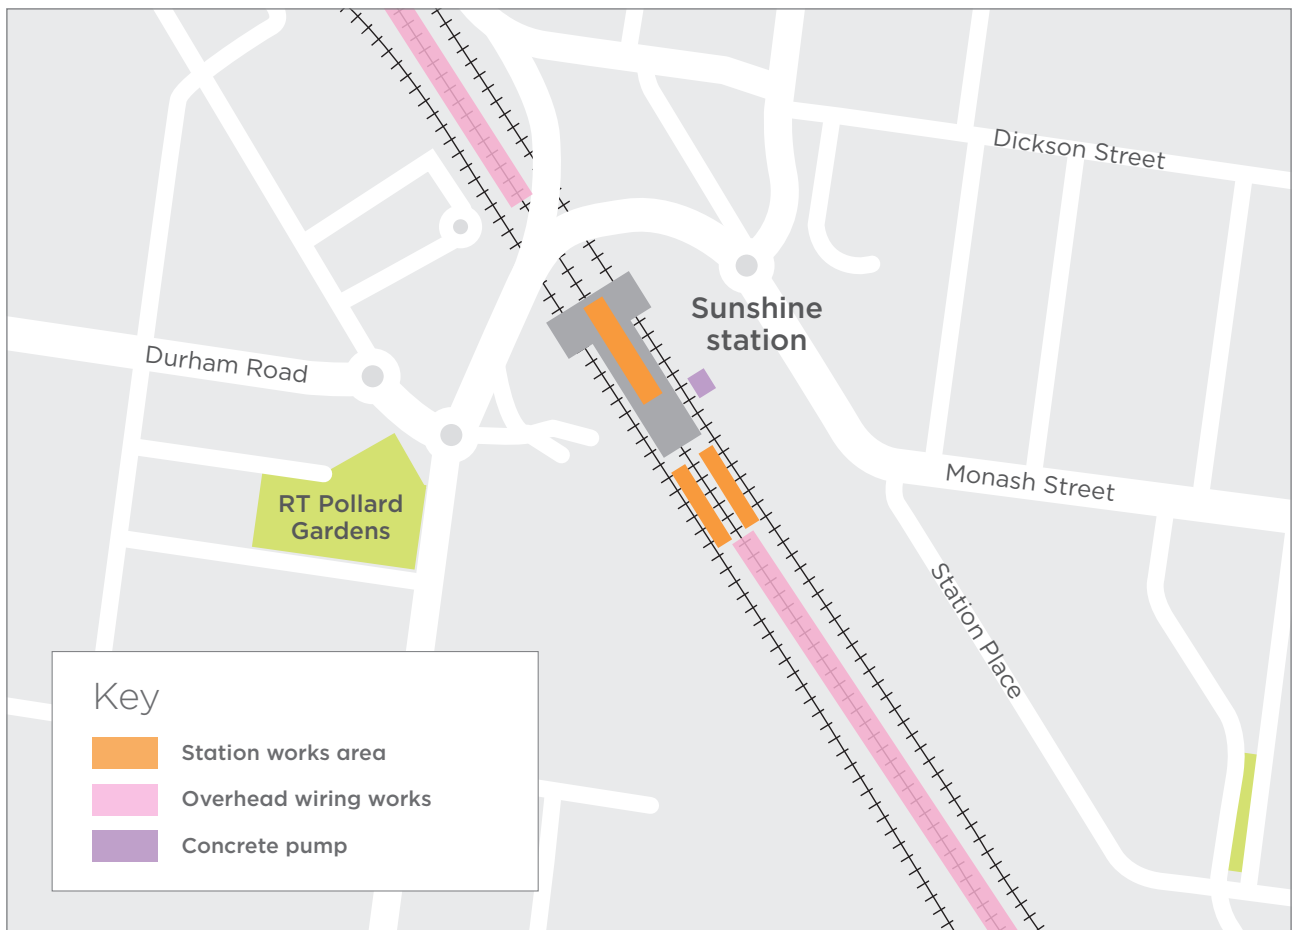

- Installing piles forming the foundations of 12 new overhead wiring structures. Excavators will drill holes in the ground and remove excess soil before a reinforcement cage is installed and concrete poured in to create the pile
- Transporting excess material offsite.

When

- 9pm, Friday 26 June to 6am, Monday 6 July
- These works will take place during a scheduled shutdown of the Sunbury rail line.

What to be aware of

- These works are expected to generate medium levels of noise and low levels of vibration
- Generator-powered lighting towers will be required during nightworks. Where possible these will be faced away from residential properties
- A concrete pump will operate adjacent to the rail corridor from within the Sunshine station (Monash Street) car park. No car parking spaces will be impacted however traffic management will be present to assist pedestrian and vehicle movements around the site.

Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Sunbury Line Upgrade, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.

Travel Changes

To ensure the 24-hour works can take place safely, buses will replace trains on sections of the Sunbury Line from 12.45am Saturday 27 June to the last service on Sunday 5 July.
